SUSTAINABILITY

The New Zealand marine farmers' safe, sustainable and environmentally friendly practices have been recognised by the International Conservation Organisation Blue Ocean Institute. This ranking of New Zealand's Greenshell™ Mussels places it as one of the top two 'eco-friendly seafoods' in the world.

COOKING METHOD

A easy and tasty way to enjoy New Zealand greenshell mussels.

Quick thawing can be achieved by running cold water over the mussels for 10 minutes, moving them around to ensure all are properly defrosted. Conventional thawing can be achieved by placing mussels in the refrigerator for 5-8 hours, draining off excess liquid prior to using.

Grill – for 2-5 minutes.

Bake – preheat oven to 160°C (320°F) and allow to bake for 5-7 minutes

Steam – bring water to the boil, add mussels, replace lid and over a high heat steam for 5 minutes.
